Options for Five Year Olds

HTCS and HTEEC proudly partner with parents in their child’s education. Between the two schools we offer three options for students who are five years old before August 31, 2015. All three programs are high quality programs designed to serve the spiritual, academic, physical and social development of our young children. Prayerfully consider the recommendation of your preschool teacher when deciding which class will best meet the needs of your child.

**Option One: Transitional Kindergarten (TK)**
TK provides young five year olds with a “Kindergarten Readiness” year. It uses a modified kindergarten curriculum that is developmentally appropriate for younger children and provides a bridge between preschool and kindergarten that helps students form a strong foundation for learning in kindergarten and beyond. The student-teacher ratio for TK is 1/10. Before and after care is available for TK children.
